NOMINEE - DR. RADHAMADHAB SAHU
Citation for Bharat Pratibha Sammaan Award Nomination
Category: Healthcare & Medicine (ENT & Skull Base Surgery) | State – Odisha

---

INTRODUCTION

Dr. Radhamadhab Sahu is a Senior Consultant and Head of the Department of ENT & Skull Base Surgery at Sum Ultimate Medicare, Bhubaneswar. With over 17 years of clinical and surgical experience, he has distinguished himself as one of India's foremost endoscopic skull base surgeons. He is nominated for the Bharat Pratibha Sammaan Award in the category of Healthcare & Medicine, in recognition of his pioneering contributions to advanced ENT and Skull Base Surgery.

ACHIEVEMENTS

- Performed more than 800 skull base surgeries, treating patients from over 20 countries.
- Introduced several procedures for the first time in Odisha, including Transoral Endoscopic Thyroid Surgery, Balloon Eustachian Tuboplasty (BET), Endoscopic Transnasal Excision of Trigeminal Schwannoma, Sialendoscopy and Endoscopic Transoral Submandibular Gland Excision.
- Developed a rare dual expertise combining postgraduate ENT training at VMMC & Safdarjung Hospital, New Delhi, with three years of dedicated Neurosurgery training in Skull Base Surgery at the same institution.
- Worked as an independent consultant for Endoscopic Skull Base Surgery with Padmashree Dr. (Prof.) V. S. Mehta, an internationally renowned neurosurgeon, at Paras Hospital, Gurgaon.
- Served as Organising Secretary of AOIBBCON 2024 in Bhubaneswar, delivering a keynote on Advanced Skull Base Surgery and demonstrating live surgeries.
- Invited as National Faculty, keynote speaker, course director and masterclass faculty at major forums including AOICON, Skullbasecon, the Neuroendoscopy Society of India, ISOCON and the World Neurosciences Summit.
- Published research in national and international journals, including Auris Nasus Larynx.
- Recipient of honours including Utkal Gaurav Samman, Debadutta Samman, Vikas Odia Samman and Odia Gaurav Samman (Mumbai, 2023).
- Delivered the Dr. H. K. Kukreja Oration at the 41st Rajasthan AOICON in 2024.
- Won 1st Prize in the Prakash and Ved Monga Temporal Bone Dissection Competition (2011).

NARRATIVE

Dr. Sahu's journey began at SCB Medical College, Cuttack, where he completed his MBBS from 2002 to 2008. He then pursued a DNB in ENT at VMMC & Safdarjung Hospital, New Delhi, followed by three years of specialised Neurosurgery training in Skull Base Surgery from 2012 to 2015. This dual training spanning ENT and neurosurgery equipped him with a

rare perspective on complex skull base disease and endoscopic brain surgery.
What distinguishes Dr. Sahu is his ability to bridge two demanding disciplines. He has applied this expertise to challenging conditions such as pituitary macroadenoma, craniopharyngioma, clival chordoma, angiofibroma, CP-angle tumours and skull base malignancies. His surgical interests include endoscopic approaches to the anterior and lateral skull base, endoscopic repair of skull base defects, and techniques aimed at minimising surgical morbidity.
Beyond the operating theatre, Dr. Sahu has been a dedicated academician. He has served as faculty at institutions including AIIMS Patna, AIIMS Jodhpur, AIIMS Bhubaneswar, SMS Jaipur, SGPGI Lucknow and Army R&R Hospital New Delhi. His teaching extends to cadaveric dissection courses, instructional courses, live surgical workshops and fellowship programmes, including those conducted by the World Skull Base Foundation.
His clinical practice also encompasses advanced ENT procedures such as endoscopic sinus surgery, endoscopic ear surgery, cochlear implantation, BAHA, Auditory Brainstem Implant, Vestibular Implant, snoring and sleep apnea management, head and neck cancer surgery, vestibular rehabilitation, sialendoscopy, lacrimal endoscopy and minimally invasive head and neck surgery. Additionally, he has saved the lives of many infants with difficult tracheobronchial foreign bodies using innovative techniques.

CONCLUSION

Dr. Radhamadhab Sahu embodies the fusion of surgical excellence, academic dedication and compassionate service. His more than 800 skull base surgeries, his introduction of multiple first-in-Odisha procedures, his extensive national and international faculty engagements and his research contributions collectively demonstrate a career of exceptional impact. He has not only advanced the field of ENT and Skull Base Surgery in India but has also brought international recognition to Odisha's medical community. For these reasons, he is eminently deserving of the Bharat Pratibha Sammaan Award.

FORMAL ENDORSEMENT

I unequivocally recommend Dr. Radhamadhab Sahu for the Bharat Pratibha Sammaan. His legacy etched in Odisha's heartland and the nation's aspirations through tireless service to healthcare development makes him a beacon of Pratibha (Excellence), Sanskar (Values), and Samriddhi (Holistic Prosperity) for the nation.
